

Ryan Milne

Full-Stack Developer

Long Beach, CA · (714) 548-2984 · ryanfmilne@gmail.com · ryanfmilne.com

Full-stack developer with 14+ years building modern web applications and e-commerce platforms. Currently building Golden West Digital, a multi-tenant SaaS platform on Next.js, TypeScript, and Supabase. Previously launched production Shopify storefronts with custom Liquid themes and B2B flows. Founded and operated an independent e-commerce business for 11 years on a self-built Magento platform. Daily user of Claude Code for high-velocity solo shipping.

SKILLS

Frontend	React, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, shadcn/ui
Backend	Node.js, Supabase, PostgreSQL, REST APIs, GraphQL, authentication, row-level security
E-commerce	Shopify, Liquid, Storefront API, Stripe, multi-tenant architecture, Magento, WooCommerce
Infrastructure	Vercel, Git, CI/CD, Stripe, environment management

Tools	VS Code, Claude Code, Codex CLI. Daily AI-assisted production workflow.

EXPERIENCE

Founder & Full-Stack Developer · Golden West Digital July 2025 – Present

Productized web agency for contractor businesses, powered by a custom multi-tenant platform.

- Designed and built multi-tenant SaaS platform on Next.js, React, TypeScript, and Supabase with row-level security for tenant data isolation.
- Built block-based site builder enabling rapid templated site delivery, custom domain provisioning via Vercel API, and Stripe billing integration.
- Implemented authentication system with role-based access control and real-time data synchronization.
- Solo developer shipping production features end-to-end with AI-assisted development workflow.

Web Developer · Catalina Home Oct 2023 – May 2025

- Launched two production Shopify storefronts: Artistry Hardwood Flooring (artistryflooring.com) and Lone Mountain Lighting (lonemountainlighting.com), an outdoor lighting brand with a B2B Pro program for contractors.
- Customized Liquid themes and built product configurators for variant-heavy SKUs, improving customer conversion paths.
- Set up B2B/wholesale account flow on Lone Mountain with gated contractor pricing tiers.
- Designed user experiences in Figma and shipped responsive themes to production.

Web Developer · Pro Audio Land Jul 2022 – Oct 2023

- Resolved technical debt in Magento 2 platform, optimizing database queries and fixing broken plugin integrations.
- Redesigned UI and restructured product catalog architecture, improving navigation and discoverability.
- Designed email marketing campaigns and promotional materials.

Founder & Lead Developer · Fashion E-commerce Business Nov 2011 – Sep 2022

- Founded and operated independent online retailer for 11 years across shoes, lingerie, accessories, and costumes.
- Built and maintained custom Magento platform managing 15,000+ SKUs with integrated payment, shipping, and inventory systems.
- Built and ran live inventory sync between Magento storefront and eBay account.
- Owned the full operational stack: development, design, SEO, paid advertising, photography, and customer experience.

Marketing: Graphic Design & Product Photography · American De-Rosa Jan 2005 – Nov 2011

Lamparts (now Luminance Lighting)

- Launched the company's first website. Early-career web development for a B2B lighting distributor.
- Built and maintained 5 brand product catalogs in Adobe InDesign. Early experience managing large structured product datasets.
- Produced product photography for catalog and trade publications.
- Designed print advertising; ads published in hospitality lighting trade magazines.
